## THE DEANTA STORY

Deanta Doors is a 100% Irish owned company that designs and manufactures its own range of real wood veneered interior doors, frames, skirting and architrave. Our innovative designs have to set the standard for modern and contemporary internal doors. We are driven by three simple ideals, delivering a quality product, excellence in customer service and a determination to continue innovating and leading the field in interior doors.

We manufacture and supply to the trade, a wide range of beautifully crafted stylish interior doors including oak, walnut and white primed doors along with a selection of FD30 fire doors. Our fire doors are certified and manufactured to safety standard BS 476: Part 22: 1987 by Certifire: Warringtonfire Certification. All Deanta doors are manufactured to the highest standard with only the finest of materials ensuring you get the best from your contemporary Deanta door.

We truly care about the experience our customers have with us. We welcome feedback and continually strive to deliver unsurpassed customer care. Deanta has over twenty-five years of experience in the building and design industry which we believe is fundamental in creating strong, working relationships with our clients, who are suppliers to the construction industry, designers, architects, builders and the general public.

## OUR COMMITMENT TO QUALITY

As with the “voice of the customer”, customer satisfaction is Deanta’s highest priority. We achieve this goal by listening to our customers and by focusing on innovation while continuously improving the cost effectiveness and performance of all our products and processes. Unlike most other Irish door companies, we have our own manufacturing facility. This allows us not only to control our supply chain but quickly respond to customer feedback. With full ownership of the quality control process we seek to ensure every door that leaves our factory is of the very highest quality. Owning the process from production to distribution enables us to be extremely competitive on price, as well as surpassing expectations on service while permitting the flexibility to have doors manufactured to meet your specification.

We have sensor lighting throughout our site to ensure that no power is wasted when not in use.

98% of all our onsite waste is recycled.

We use mains water dispensers to reduce the use of plastic bottles and help the environment.

Solar panels on the roof of our building create enough energy to make our building self-sustainable for seven months.

# Being Responsible

## WR1 WALL PANELLING

Revamp your room with our simple, elegant and affordable “Edwardian” wall panelling. Not only is “Edwardian” wall panelling inexpensive and can save you considerable time, it is also easy to install, complementing the Deanta range of quality doors, skirting, architrave and door hardware.

### Single pack of wall panelling comes with:

- 1 x (2400mm x 34mm x 31mm) length of large (top) beading
- 4 x (2400mm x 80mm x 15mm) lengths of board panelling
- 4 x (2400mm x 25mm x 31mm) lengths of (inside) beading

For further information visit our website at [www.deantadoors.ie](http://www.deantadoors.ie) or please contact your local stockist.

Wall panel a typical 15 x 8ft hallway from as little as €325

**€65 PER PACK**

## WR2 WALL PANELLING

The WR2 wall panel is the must have for this year. Inspired by the WR2 door this panel is both stylish and elegant in its form and will make a huge statement in any room. The WR2 wall panel is inexpensive and easy to install and compliments the full range of Deanta products.

### Single pack of wall panelling comes with:

- 1 x (2400mm x 39.5mm x 51mm) length of large (top) beading
- 4 x (2400mm x 110mm x 15mm) lengths of board panelling
- 4 x (2400mm x 25mm x 51mm) lengths of (inside) beading

For further information visit our website at [www.deantadoors.ie](http://www.deantadoors.ie) or please contact your local stockist.

Wall panel a typical 15 x 8ft hallway from as little as €375

**€75 PER PACK**

deanta

As part of our commitment of being a one-stop shop for customers' door needs, we offer our own patented fire doors.

These doors have been extensively tested and accredited by Certifire and satisfy all the safety needs required, so you can be confident that your home and family are protected.

Deanta's FD30 Fire Doors are rated to give 30 minutes of fire protection.

### Glass Intumescent Fire Seal

Glazing panels, intumescent fire resistant seals are also used as part of a glazed system which secures the seals, Fire rated glass to be installed also available from suitable glaziers.

GLASS INTUMESCENT FIRE SEAL  
Intumescent glazing gasket

### Glass Intumescent Fire Seal

Door gap must be between 2mm - 3mm. Intumescent fire seals must be inserted to the frame, a combined smoke and fire seal is best recommended commonly known as a brushed Seal.

SS / BRUSHED SEAL  
fire + smoke seal

## CONTRACT DOORS *dēanta*

Contract doors are made with your budget in mind.

Contract Doors are the same design as solid core doors, however our contract door core is made from a lighter core tubular or sectional material particle board, that is not fire rated. The face of the door is veneered. Then we cut the V groove out of the face which is MDF (Medium-Density Fibreboard).

The MDF is stained to a matching colour oak or walnut. The whole process is more economical and so we can offer you a more competitive price.

All Deanta Contract Doors are available in full fire-rated versions.

### SOLID CORE DOOR

solid wood inlay,  
v-groove sanded

### CONTRACT DOOR

MDF face ,V - groove sanded,  
stained to tone with wood

## EASY-FIT

# dēanta

Deanta Doors have a new innovative range of Easy-Fit Skirting & Architrave available in White Primed.

### SKIRTING:

Excess plaster gathering in the corners, with the chamfer at the bottom of our easy fit skirting, this is no longer an issue.

### ARCHITRAVE:

Sometimes the plaster and door frame might not line up, with the 70mm x 2mm rebate at the back of the architrave you will get a smoother finish every time.

## STANDARD DOOR FRAME

Our standard door frame features a removable stop allowing you to cover installation markings on the main frame giving a clean and professional finish. Our door frames are solid engineered timber with a veneer wrap finish and is also available as solid engineered oak with veneer.

Frames can be grooved out to accommodate an intumescent strip for making a fire frame when using Deanta fire doors. They may also be suitable for other fire doors, but before proceeding please make sure to check the certification first. Our frames are made from finger jointed Fir and faced with MDF adding stability to our frames (frames to be fitted after plastering is completed and dry only).

Think Different

## THE DEANTA DIFFERENCE

With an established reputation for commitment to innovative design, unsurpassed craftsmanship and excellent client service, Deanta is committed to standing out from the crowd in the door industry.

At Deanta, we manufacture all of our doors in our very own manufacturing facility. This not only allows us to control stock supply but it also allows us to have full control of the quality control process to ensure every door that leaves our factory is of the very highest standard. We have rigorous quality control procedures in place to check every single door and we stand by this with a limited 10 Year Manufacturer Warranty on all of our doors.

Our team of highly skilled craftsmen, with the help of the latest state-of-the-art technology, achieve a perfect finish to an exceptionally high standard and lasting quality to every single door. Our team are able to offer bespoke doors to meet your exact requirements – in any size and any finish. For more information about our bespoke design service please refer to page 122.

Above all else, what truly makes us stand out from the rest is our customer care. We truly care about the experience our customers have when they deal with us. We welcome feedback and continually strive to offer unsurpassed customer care. We are a company that gives solutions, not problems.

Deanta has over twenty-five years of experience in the building and design industry which we strongly feel is fundamental in building strong, sound working relationships with our clients who are mostly door merchants – and to their customers – designers, architects and builders. That's why they keep coming back to us.

# BESPOKE DOORS

*YOUR DOOR. YOUR SIZE. YOUR STYLE. OUR PLEASURE.*

Choose a bespoke size of any door in this brochure or even design your perfect door and our skilled craftsmen will bring your ideas to life.

Simply follow our four steps to get your perfect door.

Please visit our website at: [www.deantadoors.ie](http://www.deantadoors.ie) for more information.

#### STEP 1

Contact your local stockist with your request

#### STEP 2

Once we receive your enquiry you will be sent a quotation and lead time

#### STEP 3

You will receive a technical drawing and once approved, your door will go into production.

#### STEP 4

Your bespoke doors are delivered direct to your home.
